제목: Amendment to Country Files – Application of SPS Code 2008

Dear Colleague,

The Isle of Man has, on the 1st August 2014, written to advise the IMO that it will be implementing the Code of Safety for Special Purpose Ships, 2008 to new vessels constructed to the Code from 01 July 2014. In addition the Isle of Man intends to apply the code as far as is practicable to existing vessels that are compliant.

Therefore for fully SPS compliant vessels Class are authorised survey vessels for compliance with and to issue vessels with a Special Purpose Ship Safety Certificate on behalf of the Government of the Isle of Man, in addition to the SOLAS Safety Equipment Certificate as required by the convention.

The required exemption certificate will be issued by the Isle of Man Ship Registry and Class should contact the Ship Registry well in advance for issuance of this certificate.

Class should maintain close contact with the Ship Registry through the design and build of any vessel being built to this code, bringing areas of proposed equivalence or alternative arrangements to our attention well in advance of delivery of the vessel in order that these can be assessed for approval.

When an existing vessel re-flags to the Isle of Man and is either: a) SPS certificated; or b) would wish to be assessed for SPS certification, Class should advise the Ship Registry as soon as possible of the level of compliance with the Code and of any equivalence, alternative arrangements or exemptions issued to the vessel as soon as possible.

Should you have any questions or queries please do not hesitate to contact the undersigned and it would be appreciated if you could confirm your understanding of the above notice

Kind regards

David Morter
